## Foliant 400A Automatic Laminating Machine

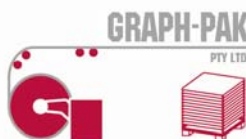

Production model Foliant 400A is a fully automatic laminating line with an automatic feeder and sheets separator. The automatic sheet feeder increases the machine's output up to maximum of 1400 B3 sheets per hour, and it is equipped with a deep pile feeder designed to accommodate a supply of paper up to 15cm high. The fully automatic machine Foliant 400A is supplied with a modular stand and with a reception unit for storage of laminating sheets as standard. The machine requires a minimum floor space of 74 x 280cm.
