Komfi Delta – Plastic Laminating Machine

This machine is as new and has been well maintained. The process is for thermal plastic one side lamination and is a great machine for the small printer.

Features

- Max Sheet Size = 520 x 720
- Min Sheet Size = 170 x 200
- Max Speed 25mt/min
- Compact design, complete with feeder and separator, requires just 34 square feet of floor space.
- Rapid heat recovery system maintains uniform temperature levels.
- Pneumatic nip pressure maximizes film adhesion.
- Setup is simplified through the use of moveable side guides.
- Handles a variety of film and paper stocks ranging from 80 lb. to 24 pt.
- Quick and easy changeovers make short runs as efficient as longer jobs.
