The 200X microscope has been found to be the most versatile magnification for the quick on-the-spot inspection of anilox rolls and plates. Until now, high cost and availability for this type of scope has kept this type of inspection out of the pressroom.

Featuring ruggedized construction, the 200X Pamarco Handheld Microscope is ideally suited for the heavy demands of the pressroom floor. It is simple to use. A visual inspection with excellent magnification and clarity can be achieved in seconds, on or off press. Ideal for troubleshooting, the Pamarco Handheld Microscope with its handy carrying case, is truly portable and a versatile addition for any pressroom floor or field personnel.
